

GGAA Newsletter November 2018

Dear All,

A quick update on what is happening on site and another call for assistance.

Tree trimming 28 November 2018

We have arranged for some of the trees along the side of the stream to be trimmed this week to improve the light and to remove any dangerous overhanging branches. We are starting at the north end nearest the new car park. When this first stage is complete we will review the impact and probably continue to do more. Please be aware of what is happening and help the tree-fellers if they need anything moved or if they ask you to move away for your safety. The should be starting on the 28th November but may take a couple of days, so stay aware,.

Manure deliveries

Anna has arranged two free manure deliveries for the **5th December 2018**. Help yourselves but please obey any instructions from committee members or the notices that will be put up. Please keep it all tidy and help to give the car parks a final clean when it has all gone

New Fencing

The new fencing has been completed .alongside the stream adjacent to Clitterhouse Park. It looks good but we need to keep the the allotment side of it clear of obstructions and vegetation. Allotment rules stipulate a one metre clear space alongside any fences.

Volunteers

We still need more help in manning the shop if we want it to be open most of the year. As you see below the shop will be closed most of December and January, and probably for August next year, because of lack of volunteers. If you feel that you can help, please contact Anna on 07765923106.

Shop opening hours

The shop will be open with limited hours over the winter

.

Last opening on Sunday 16 December, reopening on Saturday 19th January

2019.

But trade is always slack at this time of the year, so if it is snowing or raining heavily, do not be surprised if the shop is shut and the volunteer has given up and gone home to warmth and comfort.

Many thanks
